

High Education in Artistic Woodwork & Cabinet Making

Artistic Woodwork & Cabinet Making

▲ SOME OF THEIR ACTIVITIES MAY BE

Making furniture with high quality and artistic standards designed by themselves or by any other professional. Collaborating with a curator-restorer in the identification of damages and also in the elaboration of the graphic and technical documentation for a project. Applying the techniques and the suitable procedures for the restoration and conservation of furniture from given instructions or based on the documents prepared by curators-restorers of cultural assets.

I'm going to work as

- A carpentry workshop technician.
- A furniture restoration and conservation technician.
- A freelance artisanal cabinet maker & woodworker.
